

**Srikanth Kannankote**  
*Director*  
*WeP Peripherals Limited*

Srikanth Kannankote, President and CEO, Infoclarus is a recognised leader in the services industry with more than 25 years of professional services and systems integration experience. He holds a Master's degree in Business Administration in Finance and Management science, as well as a Bachelor's degree in Mathematics from the State University of New York (SUNY) at Buffalo.

During his 22 years career with Digital Equipment Corporation (the final two years being with Compaq) Srikanth was instrumental in transforming and growing the business into a significant player in the industry. Under his leadership Digital/Compaq Professional Services was ranked as the Tier 1 services company and also named as the No.1 systems integration company by Computer World. As the world wide leader, he managed a business of several billion dollars per year focusing on application and technology solutions including Customer Relationship Management, e-Commerce, Supply Chain, Knowledge Management, Next Generation Networks and Outsourcing.

In his most recent role as the President of Global Professional Services (GPS) in Nortel Networks, Srikanth created and managed a new business division achieving a new revenue base of several hundred million dollars across all Nortel product and geography segments. Under his leadership, Nortel GPS won many landmark contracts including the first managed services contract worth several hundred million dollars with a global carrier.

As global professional business manager turned entrepreneur, Srikanth's inputs to the Board have been of very high value as they add the needed international flavour to the direction and conduct on our business.

**Suresh Vaswani**  
*Director*  
*WeP Peripherals Limited*

Suresh Vaswani is the President of Wipro Infotech, India, Asia Pacific and the Middle East IT business of Wipro Limited. Suresh started his career with Wipro after graduating from Indian Institute of Management, Ahmedabad in 1985. Since then he has held a number of positions at Wipro before assuming the office of the President of Wipro Infotech in October 2000.

Suresh has held many leadership positions that involved starting new businesses as well as turbo-charging existing businesses. He played a pivotal role in scaling up the Communication business in Wipro Infotech. Today, this business has become a success for Wipro, in both domestic as well as global markets.

He also led Wipro's joint venture with Acer Inc. and its PC business positioning "Super Genius" as one of India's leading PC brands.

In his current role as President of Wipro Infotech, Suresh and his team are responsible for realising the Wipro Infotech vision of being a leader in IT Services & Software Solutions in Asia Pacific, the Middle East and India.

He heads a business with revenues of Rs. 8,390 million encompassing products and services with operating margin of Rs. 557 million.

He has recently taken on the leadership role to spearhead the growth of the Telecom and Internet Service Provider Solutions business globally.
